The Workboat Code Edition 3 Standards and Guidelines for Best Practice

*(To be read in conjunction with SIN 107 & The Workboat Code Standards and Guidelines
for Best Practice)*

To: Masters, Owners, Operators, Certifying Authorities & Builders

Introduction

This Shipping Information Notice (SIN) is intended to supplement SIN 107 and The Workboat Code Edition 3 Standards and Guidelines for Best Practice, by providing where appropriate references to Gibraltar legislation and/or requirements which should be referred to in addition to those referenced within the original summary of standards for small workboats and pilot boats certified under this edition of the Code.

This SIN is not exhaustive and shall be viewed as guidance only.

In the absence of a specific Gibraltar requirement, the original reference within the Standards and Guidelines for Best Practice shall have effect. In cases of any further clarification required, Certifying Authorities are to contact the Gibraltar Maritime Administration via; maritime.survey@gibraltar.gov.gi

1. Summary

- 1.1 The following is a summary of current standards and guidelines applicable to vessels certified under the Workboat Code Edition 3. All standards and guidelines listed are at the point of publication of this SIN the most up to date version. Where a standard or guideline is no longer in date but is still referenced within the Code, it is the responsibility of the vessel owner/operator to use the latest edition.
- 1.2 In addition to the standards referenced within the following summary, Gibraltar registered vessels may be provided with marine equipment as per Shipping Guidance Notice 093(a), section 2(a).
- 1.3 Equivalent standards may be considered on a case-by-case basis subject to the approval of the Administration (*see Shipping Guidance Notice 093(a), section 2*).
- 1.4 Numbering refers to applicable section reference(s) within the Code.
